## **Fundamentals of Mechanical Engineering**

## CHAPTER NO.

- 1. Introduction to Mechanics
- 1.1 Force Moment and Couple
- **1.2 Principle of Transmissibility**
- **1.3 Varignon's** Theorem
- 1.4 Resultant of Force System
- 1.5 System of Forces
- 1.6 Types of Support
- 1.7 Types of Load
- 1.8 Free Body Diagram
- **1.9** Equilibrium Equation and Support Reaction
- 1.10 Normal and Shear Stress and Strain
- 1.11 Hookes' Law
- 1.12 Poisson's Ratio
- 1.13 Elastic Constants and Their Relationships
- 1.14 Stress-Strain Diagram for Ductile and Brittle Materials
- 1.15 Factor of Safety (FoS)
- 2. Introduction to IC Engines and Electric Vehicles

- 2.1 Basic Definitions of IC Engines and Components
- 2.2 Construction and Working of Four Stroke SI Engine
- 2.3 Construction and Working of Two Stroke SI Engine
- 2.4 Construction and Working of Four Stroke CI Engine
- 2.5 Construction and Working of Two Stroke CI Engine
- 2.6 Scavenging Process of Two and Four Stroke IC Engines
- 2.7 Difference between Two and Four Stroke IC, SI, and CI Engine
- 2.8 Components of Electric Vehicle
- 2.9 Types of Batteries in EV
- 2.10 Electric Vehicle Charger
- 2.11 Electrical Vehicle Drive System
- 2.12 Electric Vehicle (EV) Transmission System
- 2.13 Electric Vehicle (EV) Power Devices
- 2.14 Advantages and Disadvantages of Electric Vehicles (EVs)
- 2.15 Hybrid Electric Vehicles (HEVs)

## 3. Introduction to Refrigeration and Air-Conditioning

- 3.1 Refrigeration Effect
- 3.2 Ton of Refrigeration
- 3.3 Coefficient of Performance
- 3.4 Methods of Refrigeration
- 3.5 Construction and Working of Domestic Refrigerator

- 3.6 Concept of Heat Pump in a Refrigerator
- 3.7 Air Conditioning: Meaning and Applications
- 3.8 Humidity in Air-Conditioning
- 3.9 Dry Bulb, Wet Bulb, Dew Point Temperatures, and Comfort Conditions
- 3.10 Construction and Working of Window Air Conditioner
- 4. Introduction to Fluid Mechanics
- 4.1 Introduction to Fluid Mechanics
- 4.2 Fluid Properties
- 4.3 Pascal's Law
- 4.4 Continuity Equation
- 4.5 Working Principles of Hydraulic Turbines (Pelton Wheel and Francis)
- 4.6 Pumps (Centrifugal and Reciprocating)
- 4.7 Hydraulic Lift
- 5. Introduction to Measurement and Mechatronics
- 5.1 Introduction to Measurement
- 5.2 Errors in Measurement
- 5.3 Calibration
- 5.4 Measurements of Pressure

- 5.5 Temperature
- 5.6 Mass Flow Rate
- 5.7 Strain
- 5.8 Force
- 5.9 Torque
- 5.10 Concept of Accuracy, Precision, and Resolution
- 5.11 Introduction to Mechatronics
- 5.12 Introduction to Autotronics, Bionics, and Avionics
- 5.13 Sensors
- 5.14 Transducers
- 5.15 Overview of Mechanical Actuation System
- 5.16 Hydraulic and Pneumatic Actuation System
