

# MATHEMATICAL INNOVATION

## Index

CHAPTER NO	TOPICS
1	<b>Recent Advances and Innovations in Algebraic Structures and their Applications</b> (Mr. A. Durai Ganesh)
2	<b>Thermodynamics and Computational Fluid Dynamics using Numerical Methods</b> (Dr. Brinda Halambi)
3	<b>Fluid Mechanics and Heat Transfer Enhancement in Sinusoidal Microfluidic Channels: A Multiphysics Approach</b> (Dr. Archana Shukla)
4	<b>Differential Equations in Scientific Computing and AI</b> (Manjeet Singh)
5	<b>Applications of Differential Equations in Modeling and Solving Computational Challenges</b> (V. Krishnaveni)
6	<b>Linear Algebra and Matrix Computations in Machine Learning</b> (Manjeet Singh)
7	<b>Complex Analysis and Fourier Transforms in signal processing</b> (Dr. Mamatha Ravi)
8	<b>Discrete Mathematics and Automata Theory in Computing</b> (Dr. Dudheshwar Mahto)
9	<b>Optimization Techniques and Genetic Algorithms in AI</b> Dr. V. Priyalakshmi , Dr. K. Nandhini
10	<b>Integrating Genetic Algorithms with Optimization Techniques in AI</b> (Manjeet Singh)

11	<b>Artificial Intelligence, Neural Networks, and Mathematical Logic: An Integrated Computational Framework</b> (Manjeet Singh)
12	<b>Semiconductor Physics and AI in VLSI Design: A Synergistic Approach for Next Gen Microelectronics</b> (Dr. K. Karthika , Dr.Aaron Kevin Cameron Theoderaj)
13	<b>Green Chemistry and Machine Learning for Sustainable Processes</b> (Dr. Shreni Diwakar , Mrs. Gayatri Sahu)
14	<b>Plant Anatomy and AI-driven Microscopy Techniques</b> (Dr.Dharmasoth Rama Devi)
15	<b>Graph Theory and Its Application in Network Science</b> (Dr. N. Ramalingam)
16	<b>The Role of Internet of Things Data in Stock Market Forecasting: A New Frontier for Financial Management</b> (Dova Soumith)
